TABLE I.

Area, Houses and Population.

THIS table shows for each district in Bengal the area, the number of towns and villages, the number of occupied houses and the population, male and female. In the case both of the occupied house and of the population, besides the total are shown separate figures for urban and rural areas.

The figures adopted for the area of districts differ considerably from the figures used in the corresponding table in 1911. To a slight extent only the modifications correspond to changes of jurisdiction. Some of them correspond to changes due to alluvion and diluvion by the great rivers and some are based on the figures of fresh surveys made during the decade, but for the most part they have been made in an attempt to deal, in a consistent manner for all parts of the province, with the area under the waters of its rivers. The figures now given exclude the area of all rivers forming district boundaries and also of rivers within each district when they are so large that the exclusion or inclusion of their area would materially affect the figures for density of population within the jurisdiction of the police-stations through which they run. No forest area has been excluded.

For the purpose of column 3, number of towns, cantonments have been treated as forming parts of the municipalities which they adjoin. Only Buxa cantonment in Jalpaiguri district, which adjoins no municipality, has been accounted a town by itself.

The use of the word "Villages" is not properly applicable to rural Bengal where the homesteads of the inhabitants are scattered over the whole face of the countryside. The area has, however, been divided into survey units denominated *mouzas*, and for the purposes of definition of jurisdiction, etc., as well as in reference to the rights of agricultural tenants, these units take the place of villages. The figures in column 4 are the number of inhabited rural *mouzas*. Correspondingly the figures in column 7 are the number of houses in rural areas.

Separate statistics for the area within the jurisdiction of each police-station will be found in Provincial Tables I and II at the end of this volume.

TABLE II.

Variation in Population since 1872.

THIS table compares the population as ascertained in March 1921 with that of five previous Census enumerations. The figures for the latter differ slightly from those shown in the old Census Reports in all districts except Chittagong and Chittagong Hill-Tracts. This is due to subsequent changes of jurisdiction. The effect of these changes in the population of the districts concerned has been calculated and the figures have been adjusted accordingly.

The following are the districts which have undergone changes of jurisdiction :—

Between 1872 and 1881—

Burdwan, Birbhum, Bankura, Midnapore, Hooghly, 24-Parganas, Murshidabad, Jessore, Rangpur, Mymensingh, Faridpur, Bakarganj, Tippera and Noakhali.

Between 1881 and 1891—

Burdwan, Birbhum, Midnapore, Hooghly, Nadia, Darjeeling, Rajshahi, Jalpaiguri, Bogra, Malda, Dacca, Mymensingh, Faridpur and Tippera.

Between 1891 and 1901—

Hooghly, Howrah, Rajshahi, Dinajpur, Jalpaiguri, Bogra, Pabna, Dacca and Faridpur.

Between 1901 and 1911—

Burdwan, Hooghly, Nadia, Rajshahi, Dinajpur, Jalpaiguri, Rangpur, Bogra, Pabna, Malda, Dacca, Mymensingh and Faridpur.

Between 1911 and 1921—

Birbhum, Nadia, Jessore, Khulna, Dacca, Faridpur, Bakarganj, Noakhali and Tippera.

The Province as now constituted lost 616 persons by transfer from Jalpaiguri to Goalpara between 1891 and 1901, 2,535 persons by transfer from Malda to Purnea between 1901 and 1911, and between 1911 and 1921 lost 664 persons by transfer from Tippera to Sylhet and gained 192 persons by transfer from Sonthal Parganas to Birbhum, the net result being a loss of 472 persons.

Certain changes in jurisdiction up and down the Padma between Malda, Rajshahi and Pabna on one side and Murshidabad and Nadia on the other, were found to have been effected before March 1921, following the main stream of the river as ascertained in the Diara Survey, which was completed during the decade. As, however, these changes had not been regularly notified the Census statistics have been prepared following the old boundaries.

TABLE III.

Towns and Villages

CLASSIFIED BY POPULATION.

For the purposes of this table "urban areas" have been taken to be such towns as appear by name in tables IV and V and no others. Cantonments have been treated as parts of the municipalities which they adjoin. Buxa Cantonment in Jalpaiguri district since it adjoins no municipality has itself been treated as a town.

The word "village" has been used in reference to the rural population in order to bring the table into conformity with the corresponding table for other Provinces of India, but through most of Bengal it is a term the use of which is liable to mislead. In the greater part of Bengal the rural population does not live congregated in villages as in other parts of India, but homesteads are scattered over the face of the country, or lie in strips following the configuration of land which lies a little higher than the rest. Except in Darjeeling district, the Chittagong Hill Tracts and Tripura State the country is divided for administrative purposes in a system of units, originally units of survey, to which the vernacular term *mauza* is applied. This system of division is well understood, and has the sanction of common use by all grades of persons in the land system. The figures for villages in this table are the figures for *mauzas* in respect of all parts of the province except those parts of Darjeeling, Chittagong Hill Tracts and Tripura State which have not been systematically surveyed for revenue purposes. In these only the figures refer to residential villages.

TABLE IV.

Towns classified by population.

WITH VARIATION SINCE 1872.

THIS table shows the population of all cities and towns, *i.e.*, municipalities, cantonments, and certain other places which are of an urban character though not under Municipal Government. While in Table V cities and towns are arranged territorially, in this table they are classified by population in the following six classes :—

Class I	... ...	100,000 or over.
„ II	... ...	50,000 to 100,000
„ III	... ...	20,000 to 50,000
„ IV	... ...	10,000 to 20,000
„ V	... ...	5,000 to 10,000
„ VI	... ...	under 5,000

To enable comparison to be made with previous censuses, when the cantonment population was not separately recorded, the population of cantonments has been added to that of the municipalities which they adjoin, but separate figures have also been printed in italics for them below the totals for the municipalities in question. The population of these cantonments is shown below :—

Cantonment.	Municipality with which included.	Total population.	Males.	Females.
Fort William	Calcutta ...	2,756	2,524	232
Alipore	Ditto ...	410	335	75
Dum-Dum	North Dum-Dum ...	3,855	2,445	1,410
Barrackpore	Barrackpore ...	11,738	7,836	3,902
Jalapahar	Darjeeling ...	838	523	315
Lebong	Ditto ...	504	307	197
Buxa	Figures not included in this table.	293	200	93

Buxa Cantonment (Jalpaiguri District) does not adjoin a town.

The population of Calcutta and the suburban municipalities, as returned at enumerations previous to 1901, has been adjusted on account of subsequent changes in municipal boundaries. The figures now given represent the population of the area now included in each municipality. Similarly, the figures for Howrah in 1872 and 1881 represent the population of the present area of that municipality, excluding Bally, which was cut off and formed into a separate municipality in 1883. The population of the municipalities at Dacca and Agartola, as returned at previous enumerations, has also been adjusted on account of changes in municipal boundaries, and the figures given in the table represent the population of the area now included in each municipality. With these exceptions, adjustments have not been made on account of changes in municipal areas, and the old figures have been left unaltered.

During the decade new municipalities have been carved out of existing ones in certain instances which are indicated in the table by footnotes. Municipal boundaries have been changed in certain other instances and the changes have been responsible for instance for the conspicuous decrease in Netrakona.

TABLE VII.

Age, sex and civil condition.

THIS table is divided into three parts. Part A shows the distribution, for the Province, as a whole, of the total population and of each religion by age, sex and civil condition. Part B shows the distribution, for Districts and States, of the population by the main religions and the total, by age, sex and civil condition; but in this part, in order to economise space, the age statistics have been given in less detail than in the provincial summary. Part C gives similar details for cities. 123082

The population of Dacca City includes 1,017 males and 583 females of Dacca Cantonment and Ramna Civil Station.

TABLE VIII.

Education.

THIS table like Table VII is divided into three parts. Part A shows the extent of literacy in the Province as a whole amongst the total population and for the population of each religion. Part B gives details for districts for the total district population and for the district population of each main religion. Part C gives similar details for cities.

The table shows the number of persons literate in any language as well as the number literate in English, the figures in columns 11 to 13 being included in those in columns 5 to 7. The test of literacy was the ability both to read and to write a letter. Persons of whatever age who could write a letter to a friend and read the answer to it were regarded as literate and those who could not do so as illiterate.

The following statement shows the number of literate persons among Indian Christians, and other Christians. such as Europeans, Anglo-Indians and Armenians :—

TABLE IX.

Education.

BY SELECTED CASTES, TRIBES OR RACES.

This table repeats the information given in Table VIII, but whereas in Table VIII the population is distributed by age and religion it is here distributed by caste, tribe or race. Figures are given showing the extent of literacy and literacy in English for all the castes, tribes and races for which separate statistics are given in Table XIII.

It must be explained that the total figures for each caste do not quite agree with the figures in Table XIII, because at the time of sorting slips for that table notes of doubtful entries of caste were made, these were classified afterwards and entries made in what seemed to be the correct columns of Table XIII. The sorting for Table IX was not however delayed pending the completion of such classification. The number of a section of the population entered in Table IX is, therefore, often less than the number appearing in Table XIII, the difference being the number added in Table XIII after classification of doubtful entries.

TABLE X.

Language.

In this table the languages returned at the Census are arranged according to the Province or Country in which they are ordinarily spoken. First come the vernacular languages of Bengal and Sikkim, followed by those of adjoining Provinces, Assam, Bihar and Orissa, and Burma, those of other Provinces of India, those of Asiatic countries beyond India and finally European languages.

Although the majority of those speaking Hindi and Urdu are immigrants, the language is included with the vernacular of Bengal, partly because it is the lingua franca in centres of organized industry, and partly because it is not to be described as the vernacular of one of several Provinces rather than of others.

In the Linguistic Survey Hindi was not treated as a single language, but Bihari is not distinguishable by the people of Bengal from what was treated as Eastern Hindi or Western Hindi. The great majority of persons who returned their language as Hindi gave no indication which would assist in its correct classification. A few used the term Bihari or mentioned one of its dialects, but none used terms which would identify their language unmistakeably as one of those Hindi languages spoken in the United Provinces or in other parts beyond Bihar. No attempt has been made to give separate figures for those who speak Bihari, for such figures could only have been misleading. The figures for Hindi and Urdu possibly include numbers whose mother tongue was Panjabi, but separate figures have been given for those returning Panjabi as well as for those speaking Gujrati, Sindhi and Rajsthani, for the return for these persons was far more complete than it could have been made for Bihari.

The Eastern Himalayan languages, as well as the Bhotia languages, have been included among the vernacular languages of Bengal and Sikkim although in the case of some of them the majority of speakers dwell in Nepal, in Bhutan and in Tibet. There are, however, no Census figures to render it possible to discover what is the extent of their prevalence in those countries.

The classification of the figures according to the families, sub-families and groups, to which the Linguistic Survey of India determined them to belong, will be found in Chapter IX of the Census Report for Bengal.

TABLE XI.

Birthplace.

This table is divided into three parts. Part A contains the statistics of birthplace for the Province, as a whole, and for each District and State in it. Part B gives similar information for Calcutta with its suburbs and Dacca, the cities of the Province. The figures for Calcutta alone are given in Part A and are not repeated in Part B, where in their place figures for Calcutta with its suburbs in the 24-Parganas and Howrah are given together. Part C gives figures for Sikkim.

TABLE XII.

Infirmities.

THOSE suffering from insanity, those deaf and dumb, those totally blind and those suffering from leprosy were counted at the time of the Census. These are the same infirmities as were dealt with in the corresponding table for 1911, except that in 1911 the second included only those deaf and dumb from birth.

Part I shows the distribution of the afflicted persons according to age and Part II their distribution according to locality.

Statistics are also given in Table XIIA for the numbers afflicted in certain castes. In this table figures are given for Anglo-Indians, Europeans and Indian Christians and for 19 other sections of the community selected as having subscribed either the largest numbers of infirm persons or the numbers largest in proportion to the strength of the section or as being representative of different grades of society. Other castes include only 26,927 infirm persons and figures are given below them for the infirm in certain hill tribes in Darjeeling, among the Garos in Mymensingh and among the Tiparas in Tripura State, amounting to 512. Table XIIA. therefore, gives figures for the castes of about three-quarters of the afflicted persons in Bengal.

Persons, who were returned as suffering from more than one infirmity, have been shown under each. The total entered as population afflicted does not therefore agree with the total of the figures for each infirmity. The following statement shows the number of persons afflicted with more than one infirmity in Bengal. There were none such returned in Sikkim :—

TABLE XIII.

Caste, Tribe, Race or Nationality.

This table gives the numbers in each district and State of Bengal and Sikkim, male and female, belonging to each of the Hindu castes, each aboriginal tribe, each Asiatic race of other than Hindu or Muhammadan religion and each section among the Muhammadans, which forms a considerable fraction of the total population. In the case of such sections of the community as are spread over most or all the districts of the Province, separate figures have been given for every one whose total numbers exceed or approach one per mille of the total population. The numbers belonging to other sections are to be found under the heading "Others" at the end of Part A and Part B of the table. Part A refers to non-Muhammadans and Part B to Muhammadans.

But in certain parts of the Province there are to be found sections of the community, which, though their numbers do not approach one per mille of the total population of the Province, form a very considerable part of the population of certain districts. The numbers of such sections in each district will be found in the case of non-Muhammadans in an appendix printed after Part A. The total population for which statistics have been afforded in this manner is 1,273,236 persons, 659,636 males and 613,600 females, and the numbers given under "Others" in Part A of the table are 2,135,118 persons, 1,162,818 males and 972,300 females, so that the figures of Part A with those in the appendix give an account of the caste, tribe or race of all but 828,902 persons, 487,164 males and 341,738 females. These belong to a large number of different castes and races, many of which are not indigenous to Bengal.

The figures under "Others" in Part B for Muhammadans are 207,711 persons, 111,043 males and 96,668 females, and figures given in a foot-note account for the race of 18,766 persons, 9,734 males and 9,032 females, so that the sections to which Muhammadans belong are not given only in the case of 188,945 persons, 101,309 males and 87,636 females.

Figures for persons of Europeans and Allied races according to nationality will be found on the title page to Table XVI, and the numbers of Anglo-Indians in each district will be found in the same table.

It will be seen, therefore, that statistics of caste, tribe, race or nationality are published, which account in detail for all but 1,017,847 persons out of a total population of 47,654,183 in Bengal and Sikkim.

TABLE XIV.

Civil condition by sex and age for selected castes or races.

This table contains statistics of civil condition by sex and age for certain castes. tribes or races whereas Table VII gave them for the whole population in each religion.

Figures have not been given, as in the case of Table IX for all castes, etc., appearing in Table XIII as it is considered sufficient to give them for Anglo-Indians, Indian Christians, and among Hindus and Animists for the following castes or tribes :—

Bauri	...	An aboriginal caste of cultivators in West Bengal.
Baidya	...	Typical of the upper middle class (professional and ministerial).
Baisnab	...	Followers of Vaishnavism, to indicate the effect if any of the tenets of this sect upon the civil condition of its followers according to age.
Brahman	...	The highest grade of Hindus.
Brahmo	...	To indicate the effect of such a reformed religion on age at marriage.
Dom	...	Typical of the lowest grade of Hindus.
Jugi	...	Weavers, typical of the class traditionally engaged in cottage industries.
Koch	...	An aboriginal tribe of cultivators in North Bengal.
Chasi Kaibartta	...	Typical of the ordinary cultivating classes.
Jalia Kaibartta	...	Typical of the fishing class.
Sontal Hindu	...	To show the conditions of age and marriage among people of an aboriginal tribe, before and after their adoption of the Hindu religion.
Sontal Animist	...	
Shaha	...	Typical of the indigenous mercantile class.

Statistics for the Musalmans, as a body, are given in Table VII. Those for Saiyads are given in this table that by contrast the conditions obtaining among a section of Muhammadans, generally of the better class, may be brought to light.

Statistics are also given for the following, not for the whole Province, but for localities where they represent a large section of the population.

Agarwala	...	Calcutta ...	...	Typical of the immigrant mercantile class.
Chakma	...	Chittagong Hill Tracts		A typical Buddhist tribe of the Eastern Frontier.
Khambu	...	Darjeeling	...	A typical Nepalese Hindu caste, devoted to agriculture.
Lepcha	...	Ditto	...	A typical unprogressive Himalayan tribe, not Nepalese in origin, and Buddhist by religion.
Magh	...	Chittagong	...	Buddhists.
Tipara ... Hindu		Tripura State	..	To show conditions in an Animist hill-tribe of the Eastern Frontier, before and after its people adopt Hinduism.
Tipara ... Animist				

As in the case of Table IX the total figures against the several sections do not always agree with the total given in Table XIII for the same reason as that explained on the title page of Table IX.

† Includes 17 males and 19 females of Indifinite Beliefs.

TABLE XV.

Christians by Sect and Race.

This table shows the denominations of Christians of all races, separate figures being given for (1) foreigners under the designation *European and allied races* and including Armenians, (2) *Anglo-Indians* and (3) *Indians.* All those who returned themselves as Protestant without further qualification have been included as "Protestant (unsectarian or sect unspecified)". Those who in spite of instruction not to do so returned themselves as Christian without mentioning any sect appear under the heading "Sect not returned."

A number of persons returned indefinite beliefs based on Western methods of thought. The number of such persons has not been included in the figures contained in the table, but the beliefs (or unbeliefs) which they returned were as follows :—

TABLE XVI.

Europeans and Allied Races and Anglo-Indians by Race and Age.

This table is in two parts A and B. Part A shows the age distribution of persons of (*a*) European and Allied Races and (*b*) Anglo-Indians in each District and State and part B shows the age distribution of those found in the cities.

A rather more detailed distribution by age is given in the case of Anglo-Indians than in the case of those of European and Allied Races in the ages of childhood, and separate figures are given for them for the age-period 50—60 which are not given for Europeans. for European children do not commonly remain in India during the school-going age and Europeans leave the country before they reach old age.

In both parts of the table, persons belonging to European and Allied Races are divided according as they are British Subjects or others. The nationalities to which persons of European and Allied Races belong are as follows :—

	Males.	Females.		Males.	Females.

TABLE XVII.

Occupations.

In the tables volume for 1911 all the occupational tables appeared as Table XV in five parts A, B, C, D and E. In this volume, the corresponding tables are separately numbered XVII to XXII and this Table XVII corresponds to Table XV, Part A, in 1911. It shows the numbers of workers, male and female, the number among them who have subsidiary occupations in agriculture (rent receivers, rent payers and agricultural labourers), and the number of dependents upon each occupation. The scheme used for the classification of occupations follows very closely that which was used in 1911, which was based on that framed by M. Bertillon, first used in France and now the basis of such schemes of classification in use almost throughout the civilized world. There are four main classes subdivided into 12 sub-classes, 56 orders and 191 groups. The classes and sub-classes are exactly as in 1911. An order has been added under Sub-class IV, Order 19, " Transport by air," but the former Order 19, " Industries connected with Refuse Matter," under Sub-class III, "Industry," has been amalgamated with Order 18, "Other miscellaneous and undefined industries." A new order has been added under Sub-class VI, " Public Force," Order 43, "Air Force," but the Former Order 40, "Trade in Refuse Matter," under Sub-class V, "Trade," has been amalgamated with Order 41, "Trade of other sorts," to form the present Order 40 with the latter title. Finally an Order No. 56 has been added at the end in which " Other unclassified unproductive Occupations" has been separated from Order 55, which now includes only "Beggars, Vagrants and Prostitutes." Thus the numbering as well as the titles of orders 1 to 18, 20 to 39 and 44 to 54 has been preserved unchanged. Certain changes have raised the number of groups from 169 to 191 according to the classification prescribed for use throughout India, and for Bengal three sub-groups have been formed in which those engaged in jute pressing (Group 27-A) have been separated from those engaged in jute spinning and weaving. those working on and in connection with sea going vessels (group 107-A) have been separated from those working on and in connection with inland vessels, and those who trade in jute (Group 123-A) have been separated from those who trade in piece-goods and other textile materials.

Part I gives a summary of the statistics of occupations for British Territory, Bengal States, and for cities for the Province as a whole, and Part II gives the full statistics for each district and state.

TABLE XVIII.

Subsidiary Occupations of Agriculturists.

(Actual workers only.)

The statistics given in this table correspond with those contained in Table XV, Part B, in the Tables Volume for 1911. The census slips for industrial workers whose principal occupation was that of (*a*) rent-receiver, (*b*) a rent-payer and (*c*) an agricultural labourer and who returned a subsidiary occupation were sorted separately for each class according to the subsidiary occupation returned. The resultant statistics form the three parts of this table. The schedule of subsidiary occupations for which separate figures were prepared in each of the three cases was devised to suit the classes to which rent-receivers, rent-payers and agricultural labourers belong.

TABLE XXI.

Occupations of selected Castes, Tribes or Races.

The statistics given in this Table, which corresponds to Table XVI in the Tables Volume for 1911, show the occupation classified on broad lines of workers belonging to certain selected castes and races. The form of the Table has been devised so as to show the traditional occupation of each caste, the numbers adhering to it, and the extent in which those who do not adhere to it have taken to occupations of other kinds. Thus the numbers of workers belonging to a caste with a traditional occupation who are engaged in that occupation are first given, and afterwards the numbers engaged in other occupations. When the traditional occupation is cultivation, for example, the numbers of cultivators belonging to the caste are shown in the columns for "engaged in the traditional occupation." They are not shown again under "cultivators" later in the table. Castes have been chosen from each rung of the social ladder among the Hindus, and though not always the most numerous castes they are castes whose character and traditional occupation is well known. Figures have also been given in the Table for Anglo-Indians, Armenians and Europeans; for Saiyads, that by comparison with the figures for Muhammadans in Table XX an impression might be obtained of the contrast between the manner of employment of the better class Muhammadans and of the great bulk of the community; for two Nepali (Hindu) tribes Khambu and Mangar who have migrated into Darjeeling and Sikkim, and by way of contrast for the Lepchas (Buddhists) who are indigenous to the same parts; and for the Maghs in Chittagong.

An appendix at the end of the Table gives figures such as were given on page 382 of the Tables Volume of 1911 for the caste, tribe and race of Inmates of Jails. The statistics which followed these in that volume are now shown in Table XXII. The statistics which immediately preceded them were given in 1911 only for Eastern Bengal and have not been repeated.

TABLE XXII

Industrial statistics.

The statistics which appear in this table correspond to those of Table XV-E of 1911 but have been somewhat amplified. They were obtained not from the census schedules but from a special Industrial Return which was required to be filled up by the managers of every concern which employed as many as ten persons. The corresponding limit in 1911 was 20, so that factories employing between 10 and 20 hands are now included, whereas they were excluded in 1911. The statistics are given in 7 parts:—

Part I shows the number of establishments engaged in each particular form of industry in the province as a whole, classified according to the number of employees in each and according as mechanical power is employed or not, and the employees in each are divided into managers, supervising and technical staff, clerical staff, skilled workmen and unskilled labourers; Europeans and Anglo-Indians are shown separately from Indians; among the artizans and labourers, females are shown separately from males, and among the unskilled children are shown separately from adults.

Part II gives the same statistics for each district separately but in this part factories are not classified according to size or according as mechanical power is used or not.

Part III shows the concerns of each industry classified according to their ownership and the caste or race of their managers. The statistics of these first three parts correspond to the statistics given in 1911 with the exception that factories with 10 to 20 employees are now included.

Part IV shows the caste or race and birthplace of skilled workmen classified according to their industry and the particutlar occupation in that industry which each follow. Males and females, and children under 14 and adults are separated. In each case the castes of the employees are placed in order according to the numbers belonging to each and in an appendix is given a table showing for all industries together the numbers belonging to each caste who have found employment. For those born in Bengal they are separated into those born in the district in which the factory is situated, those born in contiguous districts and those born in other parts of the province. Those born outside Bengal are classified according as they were born in North Bihar, South Bihar, on the Chota Nagpur plateau in the Province of Bihar and Orissa, in Orissa, in the United Provinces, in the Madras Presidency, in other parts of India or outside India. Such a classification, it is found, leaves only 2 per cent. of the total number of skilled workmen to be shown in the last two classes.

Part V gives similar statistics for the unskilled labourers employed in each industry.

Part VI gives the details of the power employed in factories engaged in each industry. First appear the numbers of establishments (with the number of their engines and the total horse-power) in which steam engines, oil engines, water-power or gas engines are used to drive the machinery directly; second, the number of establishments, using electric-power generated on the premises classified according as the prime-movers are steam engines, oil engines or water-power (the number and horse-power of the prime-movers is given and the number and power of the dynamos in use in kilowatts); and third, the number of establishments using electricity supplied from outside with the number and horse-power of the motors installed.

Part VII gives the number of looms worked by power and by hand (with and without fly-shuttles separately) in use in textile establishments in each district.

PROVINCIAL TABLE II.

Population of thanas, etc., by Religion and Education.

This table shows, for each revenue thana and the area under the jurisdiction of each police-station, the distribution of the population according to religion and the numbers belonging to the main religions who are literate in a vernacular language, and who are literate in English. The figures for the numbers of literates given against the name of each district, include persons of all religions. The figures against police-stations in Birbhum, Bankura and Midnapore include Hindus, Musalmans and Animists only; against the police-staions of Chittagong and the Chittagong Hill Tracts, they include Hindus, Musalmans and Buddhists only; against the police-stations elsewhere they include only Hindus and Muhammadans. From the point of view of convenience and despatch in the tabulation of the statistics, it was unnecessary and indeed disadvantageous to deal with the figures for persons of the less important religions of a district separately for each police-station. Figures for Hindus and Muhammadans were dealt with separately for each police-station, but figures for Animists and Buddhists only when they were present in a great body.

In some instances the jurisdiction of police-stations, *e.g.*, in Mymensingh district, has been modified of recent years without reference to the existing revenue thana boundaries. The jurisdiction of a police-station having been taken on the occasion of this Census as the unit for purposes of tabulation, it has not always been possible in such cases to give statistics according to revenue thanas.
